

C90 RIDE ON FLOOR SCRUBBER

Anrunto C90

Compact, agile and intuitive.

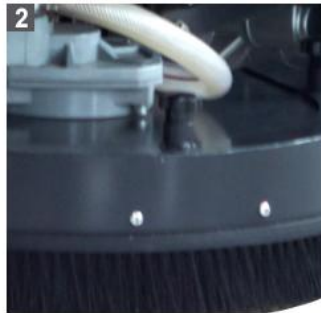

With 125L solution tank and 130L recovery tank, C90 is a high quality and reliable battery-powered ride on floor scrubber, focusing on reliability, user-friendly operation and providing excellent cost performance.

The ultra-high endurance and strong bottom pressure make it competent for the efficient cleaning of large commercial places, and it is widely used in large retail stores, factory, storage halls and small logistics warehouses, shopping malls, conference centers, airports, parking lots, railway stations and other fields.

1 Control Panel

- Push-button operation which make function selection and switching very simple, making cleaning more comfortable and easier.

2 Aluminum Alloy Brush Holder

- Die-casting aluminum floor scrubber brush, greater ground pressure, better durability, bringing Better cleaning performance.

3 Machine Structure

- The ride-on floor scrubber is equipped with a new generation of operating system, which is very flexible and provides excellent control performance. It is also convenient to pour clean water. Compact design, easy to store and carry, such as access to elevator and other places.
- The air vent of the battery box ensures that the machine can fully dissipate heat during long-term use.

4 Anti-skid Tires

- During the operation of the machine, the anti-skid tyres ensure safe driving. The integrated LED and warning light improves the security for users and surrounding areas. Automatic electronic parking brake, automatic lifting of brush and squeegee ensure the reliable service life of the machine.

Technical data and equipment.

TECHNICAL SPECIFICATIONS	
Maximum work productivity :	5500m ² /h
Forward Speed :	0-15km/h
Cleaning Width :	1150mm
Disk Brush Diameter :	860mm
Solution Tank :	125L
Recovery Tank :	130L
Battery Capacity :	24V/220Ah
Vacuum Motor :	550W
Dimensions :	1650*1150*1250mm
Operation Duration :	>4h
Net/Gross Weight :	340/370kg
Brush Motor :	310W*2
Driving Motor :	800W
